Education

Sinhgad College Of Engineering

Bachelor of Engineering in Computer Engineering — CGPA: 8.1 (Upto 6th Semester)

Nov. 2022 – March 2026

Pune, Maharashtra

Matoshri Junior College

Higher Secondary Certificate

Dec. 2020 – May 2022

Nashik, Maharashtra

Relevant Coursework

- Data Structures
- Database Management
- Artificial Intelligence
- Internet Technology
- Systems Programming
- Computer Architecture

Projects

Hostel Eats | Django, HTML, CSS, JavaScript, SQL

July 2025

- Developed a full-stack web application enabling hostel students to order meals from local home kitchens, promoting affordable and healthy eating options.
- Created an intuitive and responsive interface using HTML, CSS, and JavaScript for seamless usage on both desktop and mobile devices.
- Built the backend with Django, implementing secure authentication, order management, and communication between students and kitchen vendors.
- Utilized Django ORM with an SQL database for efficient handling of user profiles, menus, order history, and delivery logistics.
- Maintained a modular codebase to support future enhancements, including ratings/feedback, vendor onboarding, and order tracking.

AI Based Resume Screening System | Python, Streamlit, Pandas

February 2025

- Designed and implemented an AI-powered application to automate resume screening and rank candidates based on job relevance.
- Applied TF-IDF vectorization and cosine similarity to match resumes with job descriptions accurately.
- Integrated PDF parsing using PyPDF2 to extract resume content efficiently for processing.
- Developed an interactive Streamlit interface allowing HR personnel to upload resumes and instantly view ranked results.
- Reduced manual screening effort and improved consistency in candidate evaluation.

Technical Skills

Languages: Python, Java, C, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, Eclipse, Oracle

Tools/Platforms: Linux, GitHub, WordPress
